Professional Summary

Software Engineer with hands-on experience in web application development, specializing in Angular, PHP, Laravel, SQL, and MS SQL. Proven track record in developing enterprise-level applications including HR Management Systems, Asset Management, Rental Systems, and Agreement Management platforms. Expertise in full-stack development, API integration, payment gateway implementation, and automated workflow systems. Strong background in database design, complex query optimization, and building scalable solutions that improve business processes.

Education

Chettinad College Of Engineering and Technology B.E. in Computer Science Engineering — CGPA: 8.3/10.0	Karur, Tamil Nadu Jun 2019 – Apr 2022
Government Polytechnic College Diploma in Computer Science Engineering — CGPA: 7.8/10.0	Karur, Tamil Nadu Jun 2016 – Apr 2019
Vivekananda Higher Secondary School SSLC — CGPA: 7.6/10.0	Karur, Tamil Nadu Jun 2015 – Apr 2016

Technical Skills

Programming Languages	PHP, Python, SQL, TypeScript, JavaScript, HTML, CSS
Frameworks & Libraries	Angular, Laravel, Django (Python)
Databases	MS SQL Server, MySQL
Development Tools	Git, GitHub, HeidiSQL, Visual Studio Code, Postman, WAMP, WinSCP, XAMPP
AI Tools	ChatGPT, Cursor, Claude, Gemini
Technologies & Integrations	CC Avenue Payment Gateway, Cron Jobs, REST API Development, OTP Authentication, Excel/XML Processing
Productivity Tools	Microsoft Office (Word, Excel, PowerPoint, Outlook)

Experience

Software Engineer — Chettinad Groups <i>Full-Time</i>	Chennai, Tamil Nadu Oct 2022 – Present
- Hands-on experience in full-stack web development using Angular, PHP, Laravel, SQL, and MS SQL. - Working on enterprise applications including HR Management, Asset Management, Rental, and Agreement Management systems. - Implemented backend solutions using PHP and Laravel for API handling, database queries, and complex business logic. - Developed and optimized Angular applications with dynamic forms, multi-select dropdowns, Material tables, and responsive UI components. - Designed and optimized complex SQL queries for reporting, payroll processing, and multi-source data integration. - Integrated CC Avenue payment gateway, OTP-based authentication, and automated workflows using cron jobs.	

- Built Django-based applications for agreement management with approval workflows and automated email notifications.
- Streamlined workflows for asset management, HR time management, payroll processing, and rental systems.
- Collaborated with cross-functional teams for requirement analysis, system design, and feature implementation.
- Provided technical support to end-users and resolved production issues efficiently.

Key Projects

Human Resource Management System

<https://hris.chettinad.com/>

- Employee lifecycle management including onboarding, attendance, payroll, and separation.
- Time management modules for leave, shifts, and holidays.
- Automated payroll processing with payslip generation and reports.
- **Technologies:** Angular, PHP Laravel, SQL, HeidiSQL

PGHRIS (HR & Payroll Management System)

<https://stuhis.chettinad.com>

- Employee and student payroll system with onboarding, stipend processing, and leave workflows.
- Attendance-based salary calculation using Biometric, Department, and Government (NMC) data.
- Salary computed using the lowest attendance count to ensure accuracy.
- **Technologies:** Angular, PHP Laravel, SQL, HeidiSQL

Asset Management System

<http://asset.care.edu.in/>

- Asset purchase, allocation, transfer, and employee-wise tracking system.
- Automated product imports using cron jobs.
- Asset clearance workflow during employee relieving.
- XML export module for Tally accounting integration.
- **Technologies:** Angular, PHP Laravel, SQL, Cron Jobs, XML

Rental Management System

<https://rental.chettinad.com:74/>

- Tenant onboarding with OTP-based authentication.
- Building and room management with fixed rent configuration.
- Automated monthly billing with GST and CC Avenue payment integration.
- Tenant dashboard for bills and payment history.
- **Technologies:** PHP Laravel, SQL, CC Avenue, OTP Authentication

Agreement Management System

<http://agreement.chettinad.com:177/>

- Django-based system for SPO, CFA, and Transport agreements.
- Agreement data entry with attachments and approval workflows.
- Automated email notifications for agreement movement.
- **Technologies:** Python, Django, SQL

Chettinad PortBird

<https://portbird.chettinad.com:66/>

- Designed and developed modules for vessel scheduling, cargo tracking, billing, gate pass management, and marine services.
- Created real-time operational dashboards and automated reporting solutions, reducing manual monitoring efforts.
- Implemented role-based access control and secure API integrations to enhance system security and data accessibility.
- Optimized MS SQL database queries and backend services, improving application performance and reliability.
- **Technologies:** PHP, Ajax, MS SQL Server
